---

When your pet dies you will grieve, and the feelings of sadness and anger are completely normal. Your pet is a member of your family, in fact, your pet may be as important to you as children, siblings, and friends are to other people.

Our Pet Loss Support Group offers you the opportunity to get to know others who can share in your pain. You will be given the opportunity to tell the story of your loss and express the impact it has had in your life. You will also learn from a Certified Bereavement Counselor about the natural cycle of the grief process and the significance it will have on your life.

With the support of others who have experienced loss, over time you may turn your grief into a healing process. Our bereavement group is here to provide support and comfort. We know that attending a support group for the first time can be difficult. We have found that expressing our feelings can help heal the wound of grief. It is so helpful to connect with others struggling with the pain of losing a pet. Join us at Palm Beach Veterinary Specialists for friends and refreshments.
